Address: 10651 N Charley Bluff Road, Milton, WI 53563
Phone: 608-868-3169
Email: ron@midwestprairies.com
Website: www.midwestprairies.com

Service Area: Southeast Wisconsin

Services Offered: Midwest Prairies LLC offers prescribed burn services with an experienced crew. Our services encompass all stages of the burn, including planning the burn, installing firebreaks, obtaining permits and operating in a professional, safe and efficient manner.

Additional Information: We offer an introductory class in prescribed burning in the spring. Check out our web site for more information.

NRC Restorations, LLC

Contact: Steve Banovetz
Address: 209 Commerce Parkway, Cottage Grove, WI 53527
Phone: 608-712-0608
Email: sbanovetz@nrc-inc.net
Website: www.nrcdifference.com

Service Area: Wisconsin (statewide), Northern Illinois, NE Iowa, SE Minnesota

Services Offered: NRC Restorations, LLC (NRCR) provides complete prescribed burn services. We develop comprehensive burn plans and maps, create fire breaks, utilize back burning methods, and respect weather conditions. Our crews will arrive with 350 gallons of water, ATV's with tank sprayers, and all other burn equipment necessary to ignite and suppress a burn. Our crews dress in fire resistant clothing, communicate with both two-way radios and cell phones, and are trained through the National Wildfire Coordinating Group. We are fully insured and can be bonded for any size project.

Quercus Land Stewardship Services

Contact: Jim Elleson
Address: 4671 Highway JJ, Black Earth, WI 53515
Phone: 608-767-3553
Email: mail@quercus-ls.com
Website: www.quercus-ls.com

Service Area: Wisconsin (statewide)

Services Offered: We offer complete prescribed burn services for various objectives including encouraging native vegetation, controlling invasive species, reducing brush encroachment, enhancing oak regeneration, and reducing fuel loads. We provide consultation and management recommendations, and we develop burn plans, install firebreaks, obtain permits, and execute burns from ignition through mopup and assessment. Our trained, insured, and fully equipped crew will carry out your burn safely and professionally. We also provide prescribed burn training workshops.

River Valleys Wildlife Management / Sugar River Valley Pheasants Forever

Contact: David Wisnefske
Address: W4634 Richland Road, Monroe, WI 53566
Phone: 608-325-4606 or 608-558-2075 (cell)
Email: savanasp@tds.net
Website: <http://savannasprings.com>

Service Area: SW and S Central Wisconsin and NW Illinois

Services Offered: We have equipment and manpower for controlled burns. We help with developing and writing of prescribed burn plans. We can do some discing or mowing of burn corridors in some areas. We have many members of our team who have certified burning training and red cards. Our Pheasants Forever chapter has a food plot and seed program. We do wildlife habitat and prairie installation consultation.

Tallgrass Restoration, LLC

Contact: Jordan Rowe
Address: 3129 E County Road N, Milton, WI 53563
Phone: 608-531-1768
Email: info@tallgrassrestoration.com
Website: www.tallgrassrestoration.com

Service Area: Wisconsin (statewide), Illinois, Indiana

Services Offered: Site inspection, acquisition of state and local permits, preparation of detailed, fiscally responsible burn plans, safe execution on burns of any scale (from 1/4 acre back yards to natural areas hundreds of acres in size).

Additional Information: Tallgrass Restoration LLC is fully insured, and their trained ecologists safely execute burns on any scale. They use fire in woodlands, wetlands, and prairies to manage invasive species while promoting native vegetation. Tallgrass Restoration specializes in prairie and habitat installation/restoration, invasive species management and reducing erosion.

USDA, Natural Resources Conservation Service (Not a contractor)

Contact: [District Conservationists]
Address: [local county NRCS office]
Website: www.wi.nrcs.usda.gov

Service Area: All states in the Midwest have local NRCS offices

Additional Information: The Wildlife Habitat Incentives Program provides financial assistance for prescribed burning, burn plan development, and fire break installation in order to restore/ manage habitats for declining wildlife species. NRCS reimburses the participant for practices completed. Reimbursements are either a flat rate payment or 75% of the actual cost not to exceed the allowed maximum. Conservation Reserve Program (CRP) participants may be required to burn their enrolled land for mid-contract management. \$40/acre cost share is provided through the Farm Service Agency.
